Re: *Request for supplemental information*

Dear Suzy,

Thank you again for your letter dated May 9, 2014 requesting additional information in response to our ministry's request for exception from closed captioning due to economic burden. Find enclosed in this package:

- 1) Two more additional quotes for closed captioning
  - Video Caption Corporation, New York (\$29,760.00) annually.
  - USA Studios (\$46,080.00) annually
  - Bank Statement for the entire organization including Freedom House Church International and Gospel Net Int.
- 2) Monthly breakdown of income and expenditure
- 3) A supplemental info explaining the nature and cost associated with closed captioning together with other information requested for your determination.

As stated in the previous letter, our main source of revenue is from tithes and offering from our small congregation's membership. We just started a worldwide television ministry that brings hope and healing to millions in America and around the world through biblical teachings, preaching and praying for the sick in Jesus' Name. Many have been touched, healed and set free from addictions, sickness and diseases with good reports from doctors confirming their healing.

While we desire to comply with the FCC's requirements for closed captioning we find ourselves heavily burdened by the financial weight that this requirement entails. The cost associated with closed captioning for our TV program "*Healing Miracles*" averages between \$2,472-\$4,400 a month (\$29,644-\$52,800 annually) depending on whether the program is in SD (Standard Definition) or HD (High Definition) format.

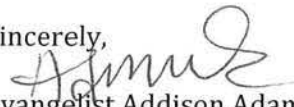

We produce eight shows (episodes) a month for our TV ministry. Closed Captioning process for each tape is explained in the attached letter from our production company Picnic Table Productions sent to you in the last package. We sought help and sponsorship from many organizations but with no success as many are struggling financially and others with no interest at all to sponsor closed captioning. Our mother organization, Gospel Net International also has a very limited income with many financial obligations each month,

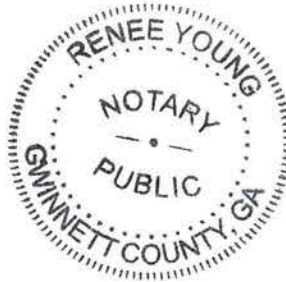

and its is not in a position to help at all. All the support comes from tithes and offering from our young church, Freedom House Church International.

We are asking for your consideration of exemption to assist us in this matter. Our television ministry will have to be discontinued if we continue to bear this enormous financial burden. Upon your approval of exemption, we will be able to upload finished episodes online to the television network in HD format.

This is a more affordable option that will greatly help our ministry with the cost of closed captioning, purchasing tapes for each episode and with no mailing cost from company the TV station, and will not missed deadlines too. Thank you for your favorable consideration in advance. God bless you

Sincerely,

## **Supplemental Information Requested for Closed Captioning Exemption**

### **The nature and cost of the closed captions for the programming:**

#### **Healing Miracles**

Two more additional quotes have been obtained from two different sources to supplement the invoices sent from Picnic Table Production in the previous mail. Find enclosed quotes from two companies,

- 1) Video Caption Corporation, New York (\$29,760.00) annually.
- 2) USA Studios (\$46,080.00) annually

Our program "Healing Miracles" produces eight episodes and airs eight times a month. The quotes include the cost of the closed captioning process per show, monthly cost multiplied by twelve months.

*Healing Miracles* is a non-profit Christian television program that airs twice every week (8 times a month) on TBN's Church Channel in America and across the world. It is designed for prayer, teaching and preaching about the Salvation and the healing power of Jesus. The program is meant to administer divine healing to people with various forms of addictions, sickness and diseases (both physical and spiritual).

#### **2) The Nature and cost of closed captions for Healing Miracles TV program**

The process to provide closed captioning for our television program *Healing Miracles* is as follows: The tape (each tape includes one episode of *Healing Miracles*) is edited by Picnic Table Productions and is then mailed to multiple companies in order to complete the closed captioning process. We mail our edited shows to different companies because Picnic Table Productions does not provide closed captioning. This process includes transcription and laying the final product to tape which is a major expense. Each time the program is mailed to individual companies for the completion of their portion of this process, an additional expense is incurred for the ministry. This has been highlighted on the previous invoices included in the last package. The invoices also include the payments made since we started our broadcast last year.

Sometimes we miss the deadlines to submit new episodes for airing due to the long process of mailing shows from one State to another for the closed captions to be done. At some point we had to cancel some of our programs due to the long process and financial burden.

#### **The cost associated with closed captioning for Healing Miracles**

The cost associated with closed captioning for our TV program "*Healing Miracles*" averages between \$2,472-\$4,400 a month (\$29,644-\$52,800 annually) depending on whether the program is in SD (Standard Definition) or HD (High Definition) format. This is based on producing 4

different shows a month that are aired twice each week totalling 8 episodes. The Closed Captioning process for each tape is explained in the attached letter from our production company Picnic Table Productions.

### **High Cost Hiring Personnel to Produce Closed Captioning**

The ministry considered buying equipment and hiring trained personnel to produce closed captioning. However, the annual cost involved in buying, maintaining and hiring someone is very high. It is twice the current cost. It is also difficult finding skilled personnel to operate the equipment at a low cost because the process is highly technical. We are unable to afford hiring skilled personnel to perform this duty due to the ministry's other financial obligations. It costs less for the ministry to continue to use individual companies for the closed captioning process, which is still a financial burden on the ministry.

### **Financial Resources**

Enclosed are Bank Statements and additional spreadsheet explaining all income and expenses (surplus and deficits) of our entire organizational, Gospel Net International and Freedom House Church International. Gospel Net International is the covering of Freedom House Church International with separate income and expenditure in one Bank account. The previous statement sent in the last mail was only the income and expenditure of Freedom House Church International. The current information is a combined statement of both church and our mother organization as requested.

The church is a new church plant started in August 2012, with a total income of \$12,000.00 in the first year and \$49,600.00 for 2013 fiscal year. Freedom House Church International initiated "Healing Miracles" TV ministry and sole responsible for paying the air time as well as production and closed captioning costs. The mother organization, Gospel Net International has a lot of other financial commitments and bills and is not in a position to help us with closed captioning due to financial constraints. We were also made aware that all other ministries under the covering of Gospel Net International have the liberty to create programs but are responsible for bearing the costs incurred. Freedom House Church International started "Healing Miracles" TV program and is responsible for all the cost including closed captioning. The cost of closed captioning is very burdensome and crippling our young church financially.

### **Current Assets:**

We are a very small and new ministry with no current assets or liability. We are non-profit 501c3 Christian organization with a sole purpose of spreading the Gospel of Jesus Christ to people on television even if they are unable to come to the physical church building. We do not have any assets or debt.

### **Video Programing Distributor Assistance**

Our distributor (The Church Channel) initially made it clear that they do not provide closed captioning for their clients and they cannot exempt clients from closed captioning unless they receive an exemption letter from the FCC.

### **We Sought Support and Sponsorship But No Success.**

We have sought support and sponsorship for closed captioning from many other organizations and individuals but none of them accepted our request. Some never responded back to us at all. Few responded that they have limited funding for their operations and do not have any interest in supporting our ministry to provide closed captioning for our television program. Others have also said they have never heard about closed captioning at all and have no interest of helping. Finding support has being very difficult.

The annual cost of captioning our episodes is economically burdensome and without your exemption we will have to put an end to our television ministry.
